

Storage
in galvanized
round
steel silos
for indoor- and
outdoor use

Easy sliding of the goods in stock: the new plain wall silos

Base ring

Reinforcement ring

Silo funnel with ventilation connection

Ventilation ducts in the silo base

Grids on ventilation ducts

Silo funnel emptying via screw-conveyor

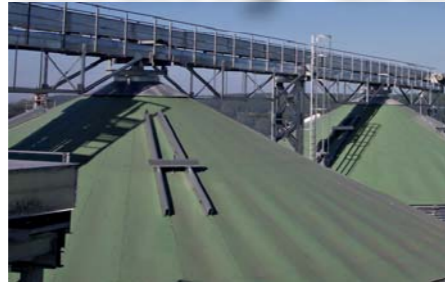

Nearly unlimited storing capacity: RIELA® corrugated steel silos

RIELA® round steel silos provide many advantages

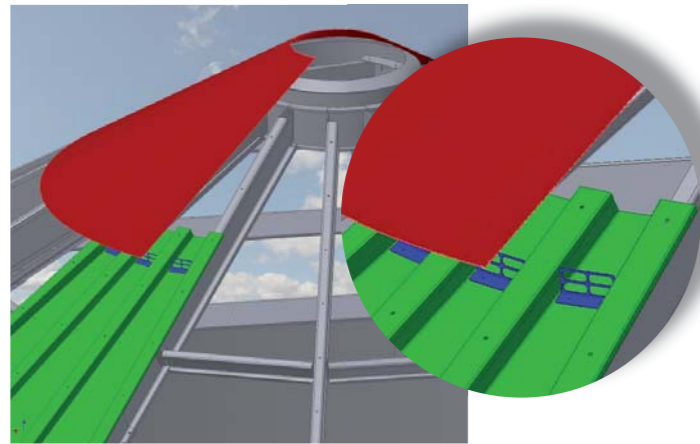

Silo roof with powder coating

Silo roof with PLASTISOL finish

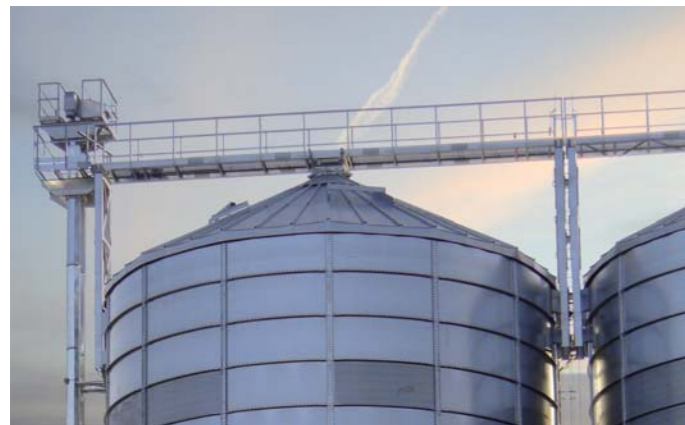

Silo roof without finish

Rainwater- and bird protection. Roof pitch 30° instead of 25°

Rain-resistant roof finish

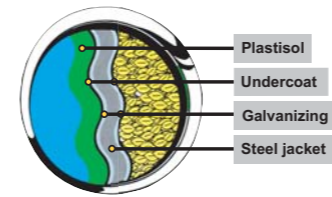

Silo walkway - a stable and secure construction

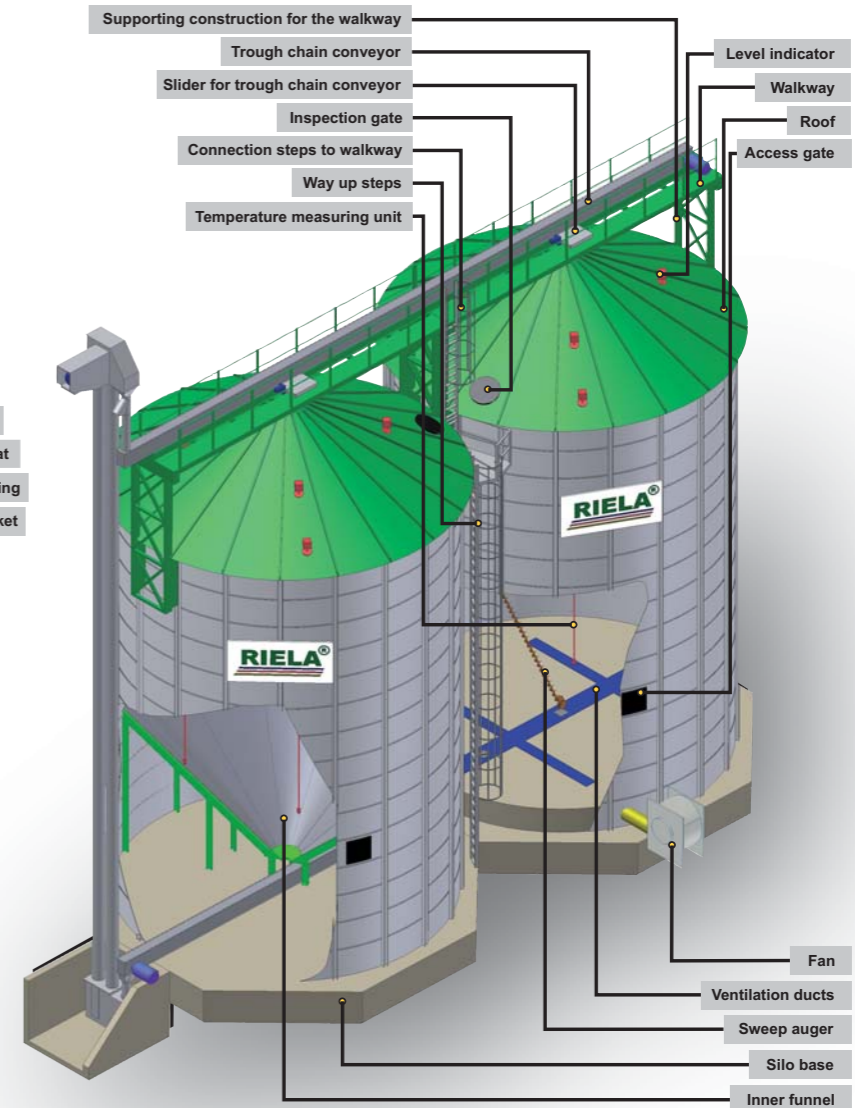

Newly developed coverings for ventilation bottoms

Big inner funnel

All silos are statically proven and provided with a galvanizing of 450 g/m².
